

Serpent Lake Recommended Wake Boat Area

Areas that are 500 feet from Shore and greater than 20 feet deep

Use of this area decreases shoreline impacts and resuspension of sediment
Be sure to fully treat or drain ballast and bilge water to prevent the spread of AIS

You are responsible for your wake – Be aware of other boaters and hazards

Not suitable for navigation - Lake depths and distances determined from
MN DNR lake depth maps found at <https://www.dnr.state.mn.us/lakefind/index.html>

Own Your Wake

Large wakes produced by some watercraft operated at certain speeds can cause a number of negative impacts, including:

- Shoreline erosion, which results in impaired water quality and property loss
- Damage to others property, including docked boats.
- Hazards to public safety both on the water and on shore
